

A WHOLE COMPANY AT EARTH'S SERVICE

In the face of the ecological disaster which more than ever has reach a critical threshold. We, being part of the hospitality industry must show the right example and act.

A hotel, because of its activity obviously consumes an important number of wastes.

It is therefore our responsibility to ensure that these consumables come out of our facility with the least possible impact on our planet.

To this day, we gave ourselves the means to recycle 15 different types of wastes.

Light bulbs, battery, plastic, paper, glass, and many more are carefully sorted and entrusted to specialized organizations.
